## SCHOOL REPORT.

---

The report of work in our schools for the past year must necessarily be much as usual. About the same amount of money has been expended as last year, but owing to the extensive repairs made on the Depot schoolhouse, it was found necessary to shorten the schools to twenty-nine weeks instead of thirty-two as usual. This is to be regretted but we feel sure that anyone visiting the school room at the Depot today and contrasting it with that of a year ago will be willing to concede that the cost of the repairs was money well spent. The buildings of the district are now in very fair condition and only the usual minor repairs will be necessary for some time.

The teachers employed during the year have been for the most part faithful and efficient and the many changes noted are due largely to the fact that the teachers secured more attractive positions elsewhere. It is undoubtedly true that the schools have suffered somewhat from these frequent changes and it is hoped that they may be avoided in the future. The purchase of new readers for the lower grades was made necessary by the condition of the books in use, and new and later ones were substituted, to the general satisfaction of teachers and pupils.

Four out of town pupils have attended our schools a part of the year, and it would seem, in view of the increased cost of supplies that the very low rate of tuition should be raised to a price nearer that of surrounding towns. The town by-law relating to the age limit of pupils, the validity of which has been questioned by some not in favor of its enactment, was referred to the Superintendent of Public Instruction, who pronounces it, in his opinion, entirely legal and we feel that it is an important aid in our work.

The attendance has been hardly up to the average of

past years, but this is due largely to illness, especially to the prevalence of severe colds during the winter term. Fifteen annual and one hundred and thirty-one term badges have been given out during the year. Only a small appropriation for repairs being needed, it is to be hoped that sufficient money may be raised to give us the usual number of weeks of school for the coming year.
